5.18 Technical Bid opening date

Technical bid would be opened on at 5.00 P.M. at the address indicated.

5.19 Evaluation Criteria and Evaluation of Proposals

A. Technical Qualification Criteria:

The M.P. State Agro Industries Development Corporation Limited will evaluate the proposal receipt through The M.P. State Agro Industries Development Corporation Limited purchase committee for a detailed scrutiny. During evaluation of Proposals, The M.P. State Agro Industries Development Corporation Limited, may, at its discretion, ask the bidders for clarification of their Proposals. The process for evaluation of Proposals is as given below-

Technical Evaluation: If a Technical Proposal is determined as not substantially responsive, The M.P. State Agro Industries Development Corporation Limited will reject it. Technical Proposals conforming to eligibility criteria will be taken up for detailed technical evaluation. The bidders would be required to make presentation before the Technical Committee if required, for which intimation would be given to the Firms/Agencies/Consultants with a notice of at least 7 days along with date, place and time of such presentation. The parameters and weightages to be used for technical evaluation will be as follows:

5.20 Evaluation Method:

It will be Quality cum Cost Basis Selection (QCBS). Bids of all Bidders shall be evaluated based on the above-mentioned criteria to arrive at a Technical Score for Each Bidder. Only bids having a Technical Score greater than 70 marks shall be qualified for the next stage: i.e. opening of the Financial Bid.

The bidder attaining a Technical Score lower than 70 marks shall be disqualified and their respective Financial Proposal shall not be opened.

The **Financial Bids** of only those Bidders that have qualified as per the criteria mentioned above shall be opened. The Financial Bids shall be evaluated and a Financial Score shall be determined for each bidder. The Financial Score shall be calculated based on the following formula:

$$Sf = 100 \times Fm / Fx$$

Where Sf shall mean the **Financial Score** of the bidder to be evaluated; Fm shall mean the lowest price offered among all the bidders; and Fx shall mean the price quoted by the bidder to be evaluated.

The Technical Score of the Bidder multiplied by 70% and to which Financial Score worked out above multiplied by 30% will be added. The bidder with highest total score will be Successful Bidder.

5.21 Confidentiality

Information relating to the examination, clarification and comparison of the Proposals shall not be disclosed to any Respondents or any other persons not officially concerned with such process until the engagement process is over. The undue use by any Respondent of confidential information related to the process may result in rejection of its Proposal. During the execution of the project except with the prior written consent of The M.P. State Agro Industries Development Corporation Limited, the Consultant and its personnel shall not at any time communicate to any person or entity any confidential information acquired in the course of the Agreement.

5.22 Period of Engagement

Consultant shall be engaged for one year, however from the date of signing of the agreement. However, the projects in hand at the time of completion of one-year period would have to be completed by the Consultant within time period and at rates as may be mutually agreed. Extension of another one year may be given to the Consultancy Firm if the performance of the firm is found to be satisfactory.

5.23 Performance Guarantee

A Performance guarantee in the form of Bank guarantee issued by any nationalized bank / scheduled bank for an amount equivalent to 1% of Contract value is to be submitted by the successful bidder prior to the execution of contract agreement. 6. Section III: Scope of Work (SOW)

Scope of Work:

The M.P. State Agro Industries Development Corporation Limited wishes to hire a consultant to carry out the following tasks:

6.1 Infrastructure Mapping:

During the course of consultancy services, the Consultant is supposed to work, to collect and analyze the following data:

- 6.1.1 Land plans of land available with The M.P. State Agro Industries Development Corporation Limited.
- 6.1.2 Soil test reports of locations/areas under consideration/study to be shared by The M.P. State Agro Industries Development Corporation Limited
- 6.1.3 List of grid sub-stations along with voltage levels.
- 6.1.4 Location of traction sub-stations
- 6.1.5 Total load under traction & non-traction
- 6.1.6 Expected load pattern for each TSS in the DFC as per the incremental traffic growth.
- 6.1.7 Feasibility of constructing continuous wall of appropriate dimensions on either side of the Right of way supporting the solar panels.

6.2 Resource mapping:

Carry out solar resource mapping for each land available with MP State Agro Industries Development Corporation at Babai Dist Hoshangabad. _for this study. The consultant has to carry out technical capacity (MWp) analysis for this entire stretch including the possibility of using the land for agricultural purpose, as per feasibility considering shadow effect & orientation. This is the case particularly for agricultural sections where MP Agro may use the land for agricultural purpose if suitable.

6.3 Technical Interconnectivity Analysis:

The consultant will carry out interconnectivity analysis for connecting with the local power transmission infrastructure in operation in the respective state. Since the project is linear in nature, the consultant has to carry out study of necessary interconnectivity intervals and procedures accordingly. The technical requirements for interconnectivity should be clearly spelt out in the detailed report.

6.4 Analysis of Environmental and Social Issues:

The consultant will carry out an analysis of environmental and social issues arising out of the project. The objective would be to screen the impacts, identify broad mitigation measures, need for conducting detailed Environmental and Social Assessment as per the safeguard policies of the SNA and clearances needed as per the regulations of Government of Industries .

6.5 **Policy and Regulatory Roadmap:**

The consultant will analyze the regulations and policies related to net metering policies for purchase of solar power by the potential buyer. As a deemed utility, any private firm can purchase power from any generator, but individual state regulators need to clear the status. The consultant will prepare a roadmap for addressing all regulatory requirements, indicating what approvals would be required and what party would be responsible for obtaining them. Also the consultant will give a list of potential buyers for the generated power.

6.6 **Analysis of Financial Model and business case:**

The consultant shall analyze the financial viability of the proposed solar investment including project sizing based on land availability, ease of interconnection etc based on PPP mode of funding. The consultant shall prepare a financial model of the investment including forecasts of investment, power generated, revenue from selling the power and operating expenses with output presented as IRFS basis Income Statement, Balance Sheet and Cash Flow Statement. The model should be able to test sensitivities to key assumptions. The consultant shall carry out detailed financial and economic analysis for the commercial utility-scale grid connected solar power plants along each corridor duly specifying the investment cost (Rs/kW) after considering the erection of wall of appropriate dimensions, cost of energy (Rs/kWh), subsidies, incentives (e.g. applied to the equipment's costs, etc.), energy tariffs, costs and benefits, total cost of ownership/life-cycle costs of plant, payback time, insurances costs, recovery costs, etc. Based on the above analysis/study, the consultant shall also submit the details of necessary documents such as ROI, payback, IRR etc, if any for implementation of the project.

6.7 **Prepare a DPR**

for 5 MW solar ground mounted project including the Soil test report, Structural test analysis, Structure FEA reports, Solar Generation report, Structure Technical Datasheet, Solar array layout, solar plant layout, solar

foundation layout, Inverter data, Monitoring data and Power evacuation plan. The exact location of the land will be decided in consultation with the client. System configuration and specifications (e.g. construction plans, module support structure and module mounting, power inverters/transformers and junction boxes, component selection and coordination, power system parameters, grounding and lightning protection concept, compliance with electrical safety regulations, compliance with relevant standards).

6.8 **Prepare bid documents**

for construction of proposed mode of solarization over above mentioned land of The M.P. State Agro Industries Development Corporation Limited, where the project seems to be feasible and economical based on above study.

6.9 **Study Outputs and Timelines**

The study is expected to be carried out over a period of 8 weeks after the signing of contract and shall comprise the following outputs:

6.9.1 **Submission of Inception Report:** It shall be submitted within 1 week of commencement of project, outlining the detailed approach, methodology to be adopted and the work plan.

6.9.2 **Report on Infrastructure & Resource Mapping and Technical Interconnectivity Analysis:** It shall be submitted within 2 weeks of commencement of project covering the geographical details of considered sections, traction/grid sub stations, details of wall to be constructed on either side of Row for supporting the panels, details of evacuation methodology for generated power, technical issues, if any.

6.9.3 **Policy and Regulatory Roadmap:** It shall be submitted within 3 weeks of commencement of project giving the details of existing regulatory/policy framework in respective state, any likely issue to be faced during integration of generated power with state grid.

6.9.4 **Report on Analysis of Environmental and Social Issues:** It shall be submitted within 4 weeks of commencement of project covering the impact of the project duly indicating the mitigation measures as per the policies of World Bank. The report shall also contain the clearances required as per the regulations of Govt. of Industries .

6.9.5 **Financial Model and Business Case Report:** It shall be submitted within 5 weeks of commencement of project covering the details of PPP model best suited for the project with details of financing the project, viability gap funding, if any and its expected rate of return to the investor.

6.9.6 **Detailed Project Report:** It shall be submitted within 7 weeks of commencement of project outlining the factors and areas considered for technical cum financial feasibility study, likely rate of return, necessary funding details and assessment of solar resources available at different locations, calculation of energy yield at site, interconnectivity and regulatory

roadmap including final recommendations for implementation of project.

6.9.7 **Bid Documents:** The consultant shall prepare the bid documents in due consultation with the Client regarding format etc, and the same will be submitted within 8 weeks of commencement of project. It shall contain necessary general conditions, special conditions, instructions to bidders etc for floating the tender by the client on suggested PPP model with necessary funding details, if any.

6.9.8 Major milestone targets for key deliverables are as indicated below:
